## ABOUT NATURAGEN

From collagen to complete wellness.
Naturagen is the food supplement and cosmetics brand of Iskefe Holding – a group of companies whose operations include gelatin and hydrolyzed collagen production and its own R&D centre.
Naturagen was created to turn that expertise into everyday nutrition. The range is built around the raw material the Group knows best – hydrolyzed collagen, sourced from within the Group – and extends from pure, single-ingredient collagen powders to complete formulas that combine collagen with vitamins and minerals, across formats from powder and sachet to tablet, softgel, capsule,liquid and gummy.
Together they cover skin, joint and bone health, immunity, sleep and everyday wellness.Every Naturagen product is developed to a specification we define, manufactured in Türkiye under GMP-certified conditions, and analysed both in the Group's own testing laboratories and by accredited independent laboratories before release.

- Own gelatin and collagen production
- Own R&D centre and testing laboratories
- Accredited third-party verification
- GMP-certified manufacturing
