01 — THE BRAND

The taste of the Black Sea, in every kernel.

Pakfın Fındık packs Turkish hazelnuts and hazelnut-based foods: natural and roasted kernels, smooth spreads and traditional treats.

Türkiye grows most of the world's hazelnuts, and the Black Sea region is where the finest are harvested. Pakfın brings that harvest to the table in vacuum-sealed retail packs, alongside a small pantry of Turkish favourites that pair naturally with it.

Black Sea origin

Kernels from Türkiye's traditional hazelnut-growing region.

Vacuum-packed freshness

A full pantry
